

## TEAM BACKGROUND

### About the Team

Established in 2009, The Prototypes entered **FIRST** (For Inspiration and Recognition of Science and Technology) because team members wanted to expand their interests in the STEM fields.

### Team Goals

Team 2854's mission is to involve students in the engineering process. Safety and Gracious Professionalism are also valued.

## THE ROBOT

### Robot and Game Strategy

**Student built and student designed,**

our robot is constructed to be a power dumper. Game pieces enter into a system that acts both as a conveyor and a shooter.
